There was 1 substantiated incident in 2022, and one corrective action as a result. The corrective action was additional emphasis on employees remaining alert and attentive during duty hours.

2022 Annual Facility PREA Report

Corrective action plans occur following every substantiated incident, and some unsubstantiated incidents where measures can be taken that can improve safety. Typical corrective action plans include:

- Additional training on visual supervision practices, or a change in supervision practices, to include increased supervision efforts particularly in regard to blind spots
- Identification of barriers to adequate supervision and strategies to mitigate
- Safety Contracts for the juveniles
- Sanctions for juveniles identified to have engaged in sexual misconduct
- If appropriate, contact with law enforcement and/or human resources

Actions to improve outcomes during 2022:

Pegasus continues to make the safety of residents and staff a priority. In-depth PREA training, including responsibilities and support options, is required for every new employee and resident with refresher training provided regularly. Fourteen (14) additional cameras were installed in multiple buildings to reduce blind spots and improve supervision capabilities.
